

MPO Project #15-02
Aerial Photography
Supplemental #3

Additional procurement questions received:

- 1. Please confirm that the 1' contours will be generated for the 70 sq mi High Resolution area(s), and the 2' contours will be generated for the 286 sq mi Low Resolution area.**

Answer: Yes.

- 2. Are you able to supply the previously compiled planimetric files so we can estimate what level of updates will be needed?**

Answer: Yes. However, we are expecting a new capture and not an update. We can provide the planimetrics from the 2010 capture.

- 3. Please confirm it is your expectation that all contour and breakline files will be generated from the LiDAR data.**

Answer: Yes.

- 4. Do you have a specific pricing breakdown for the separate deliverables and tasks?**

Answer: No.
